Associate members must pay an additional \$10 fee for associate membership. All participants must supply their NRA competitor number on the league application form so that their scores can be officially recorded. DSC full members may participate in other DSC rifle leagues at no additional cost.

10. Range fees:

Range fees are collected before each match. Range Fees follow DSC rules. Full Members pay \$8 while those with work hours pay \$6. Associate members pay \$8 and guests pay \$20.

11. League Scoring:

A participant must shoot 10 matches to be eligible for Awards. Competitors are encouraged to continue shooting and turning in scores in order to improve their standing as the 10 best scores will be used to determine awards. Awards are based on the Lewis System. For NRA classification, the last 6 matches that were recorded for score will be used. Scores are submitted to the NRA for classification at the end of the league season.

11.1 CMP Games:

A shooter must shoot 5 matches to be eligible for Awards. Competitors are encouraged to continue shooting and turning in scores in order to improve their standing as the 10 best scores will be used to determine awards. Competitors must clearly mark the score sheet "Vintage Rifle".

12. Competitor Responsibilities:

Competitors will conduct themselves in a safe and respectful manner at all times. They are responsible for knowing and following all safety regulations. It is requested that cell phones be turned off or put on vibrate during matches.

All competitors are responsible for scoring the adjacent competitors target. NRA rules prohibit scoring of one's own target. All score sheets must be signed by both the competitor and the scorer. Competitors are responsible to make sure their score sheet is correct and to turn it into the range officer.

Note: Since the 10 (or 5) best scores will be used for awards, there is no reason not to turn in all scores. Therefore there is no longer any formal procedure concerning practice matches. However, if the line is full, priority will be given to shooters who have not yet completed their 10 (or 5) scores.

Competitors are responsible for setting up and taking down their own targets and to help with general setup and break down.

It is requested that competitors bring exact change to pay the daily range fees because change will not always be available.

13. Challenges:

The attending league range official will be responsible for resolving any challenges or rule/procedural disputes. The League Statistician will have the final decision over scoring/classification disputes.

14. Responsibilities / Equipment:

Participants must provide their own ammo and supplies. Shooting mats are available for use at the range.

15. Range Officer Duties:

The Range Officer is responsible for conducting the match in safe and organized manner in accordance with NRA High Power Rules. He is responsible for collecting range fees, making targets and supplies available and ensuring that the League Statistician receives competitor score sheets in a timely fashion. If the statistician is not present at the match, the Range officer will place scores in an appropriate storage container in the league shed. The Range Officer is responsible to ensure the range is left in proper condition. The Chief Range Officer has the option to delegate any portion of his duties to an assistant RO.

16. League Information:

A copy of the NRA High Power Rule Book and this DSC High Power League Program and Procedures will be stored in the DSC rifle range building and is available for all competitors to consult. It is the responsibility of the competitor to know and follow the rules.
