

## Rifle Work Bee April 12 2025

Despite the good weather, the turnout was small today. The cast included Walt Korszylowczyk, Ross Barnes, Bill Artymovich, Bruce Slykhouse, and myself – (see photo below.) Thank you, gentlemen!

We focused on the 200-yard line, cleaning out and deepening the holes in the target base to allow better use of all positions. The 200-yard target bases are deteriorating and may become unusable in about a year.

We reorganized and cleaned the 200-yard storage container - (see photo below.) We inspected service rifle target frames, replaced any damaged thermoply backers, and added a bar for target numbers in preparation for the backstop redo.

We swept out the range building but couldn't scrub it down due to the small crew.

Today's work bee workers:  
Walt Korszylowczyk, Ross Barnes,  
Bill Artymovich, Bruce Slykhouse,  
and photographer Walter Opdycke (not pictured)
