Field Notes & Harvest Summary

> Staying patient into the second day of firearm season paid off for longtime Detroit Sportsmen's Congress Life Member Terry Pardiac on the afternoon of November 16. Hunting public state land near Horseshoe Lake Campground, Terry capitalized on afternoon deer movement to harvest this clean main-frame 8-point whitetail buck.

After the excitement and heavy hunting pressure of opening day, afternoon sits on public ground often reward seasoned hunters who stick with their game plan and stay alert until last light. Congratulations to Terry on a well-earned public-land 8-point and another proud harvest for a dedicated DSC Life Member.
