

## Clubhouse

Now that summer is over it's back to work for the Clubhouse Committee. After discussing alternatives, we decided to bring back a favorite event from the past, the DSC Chili Cook-off Competition. This western themed event will be Saturday, Sept. 28.

We're going to find out which member makes the best chili in multiple categories including; with beans, without beans, wild game, poultry, vegetarian, hottest and best overall. The best overall chili maker will get their name on the DSC Chili Cook-off Trophy. Each committee should be represented by at least one member entry.

You can drop off your chili in the Clubhouse any time after 11 a.m. Sept. 28. Judging will be done by a group of qualified individuals starting at 4 p.m. with dinner starting at 5 p.m. Members entering the competition will enjoy the chili buffet dinner for free, all others will be asked for a \$5 per person donation.

So, dust off your cowboy boots and hat, gather your chili fixings and come out Sept. 28 for a meal and some fellowship. Remember, members get one work hour for just for attending.

Looking ahead, mark your calendar and plan to attend the Clubhouse Halloween event Friday, Oct. 18. There will be a best costume contest. Bonnie and Sherry are planning an appropriate dinner for the evening. More details next month.

## NRA RSO Class Oct. 19

The DSC is offering a NRA Range Safety Officer class Saturday, Oct. 19 from 9 a.m. to 5 p.m. in the clubhouse.

This class is a requirement to becoming a DSC RSO (excluding archery). The fee for the class is \$35 for DSC members and \$50 for non-members. Once NRA certified, you can work on any DSC Range after completing the range orientation for each discipline. As a range safety officer, you can earn your work hours on your favorite range. Contact each committee for the range officer orientation

You will learn the basics of running a range safely, setting up a range, safety procedures and range inspections.

To enroll in this class, contact the DSC office at 586-739-3500. The next class is will be held in 2025.

## Camp Perry

Congratulations to DSC member Jim Parsons (pictured) and his teammate Harold Panilian of the "Michigan Gomers" who finished 15th in the Vintage Sniper Vietnam Era team match at the Camp Perry matches, in their first attempt. They shot a perfect 200 at the 300-yard line. Wind and equipment issues with a scope without an adjustable objective, challenged them at the 600-yard line. Even with the problems, their total score of 372 secured fifteenth place and bronze achievement awards for the pair.

## Rifle

Last month we began our reloading discussion with a brief introduction to the economics of reloading. This month we discuss the heart of reloading – cartridge case preparation.

I know that most of the advertisements for reloading equipment emphasize the speed and ease of loading the cartridge cases. Whether you have a simple single stage press or a fancy whiz-bang progressive press, the thing you need to know is that loading the cases is the fast step in the whole reloading process.

The major time consuming step is the preparation of the brass cartridge cases. I reload using a single stage press. In my experience, I can load about 40 rounds per hour, with two thirds of that time being case prep. This includes; depriming, cleaning, trimming to length, cleaning the primer pocket, neck chamfering (inside and out) and priming. There are tools to automate the brass preparation steps, but they can be very expensive. If you shoot very common calibers such as 223, 308 or 30-06 for say, high power competition, you can usually buy prepped cases or get somebody to do the prep work for your own brass. This comes at a price and works away at the nice economics you were looking for when you started reloading. However, it does save you a lot of time.

Should I get a progressive press? If you are brand new to reloading, my answer is no. You first need to become experienced with each step in the reloading process. Once you know how each step works and the problems and pitfalls that can occur, then you will be better ready to understanding the

Many current BOD members have served for many years constituting a “leadership core” (which has served the club well to this point). However, many may not be able to sustain that level of commitment going forward.

It’s important that the club continue moving forward the next 2 years addressing the club’s sustainability.

New members stepping up now into leadership roles is an important piece going forward.

President Saylor echoed Mr. Purdy’s comments that the club needs to be forward looking.

Ms. Palmer also commented that we have an open employee position at sporting clays that we should now be looking to advertise.

relatively complex process of a progressive reloader. Besides, there many uses for your single stage press in addition to a progressive press. If you are an experienced reloader, then it's simply a matter of choice. Progressive presses will give you a higher output but you really need to pay close attention to the process to avoid any mistakes. Of course, you need to pay attention with the single stage press as well, but you are naturally going slower so it is easier to monitor the process. Next month we will cover some other aspects of the process.

September brings two special shoots of interest to rifle shooters of the DSC. First is the annual 22 rifle woods walk down on the black powder range Sept. 21. This is great fun and great practice for hunting squirrels.

Second is a combination match Sept. 29. First is a CMP M1 carbine match. Second is brand new - a Precision Rifle Fun Match. This match is shot from the bench at 200 yards. Centerfire rifles will use the SR-21 target (6.1" diameter black) while the rimfire rifles will shoot the MR-52 target (11.8" diameter black). This should be fun and since its from the bench there should be no excuses about why you don't want to give it a try. For more information, see the flyers in this issue of the P&K or consult the "coming events" page on our website.

## Archery

The Archery Fall 3D and Broadhead Combo league is finishing up in September with a banquet and prizes Sept. 16 in the DSC clubhouse. Turnout for the fall league this year is down about four teams over the last few previous years. This seems to be a trend for many of the archery events including the weekend open 3D shooting.

The reasons for the lower turn out cannot be confirmed, but the course has been very wet and muddy this year along with record mosquito numbers. The Archery committee is hopeful that as hunting season gets closer, we will have a better turn out.

A new event for this year, DSC has partnered with Royal Oak Archers and Oakland County Sportsman’s Club to have a Barbeque Trifecta Archery 3D shoot. The last leg will be Sept. 15 at DSC. The two previous Shoots at the other clubs shoots had ~ 40 shooters each, so hopefully we will see similar numbers for the DSC leg.

As a reminder, the Archery Committee has open shooting every Saturday and Sunday through the end of September. Shooting times start at 9 a.m. with last out by 2 p.m. If there is rain, the indoor range will be available.
